Product Specifications & Technical Details

Token2 - security is easy

Product Details

Google Authenticator for Citrix Web Interface 5.4.x (GAWI) - Pro version

A WI customization package that allows Dual Factor Authentication for Citrix Web Interface 5.4.x using Google Authenticator or any other TOTP app or hardware token.

GAWI is based on Web Interface customization, so no additional server (e.g. Radius) is required

With Pro version, users can enable second-factor authentication themselves with no administrative intervention required

Pro version also includes one year of support and installation services if required.
