## Leather Case for Token2 Dual Interface FIDO2 Security Keys

**Protect your key while keeping it fully usable.**

We do not recommend attaching the Token2 key directly to a keyring, as the body is made of plastic and may wear or break over time. This custom-fit leather case adds a layer of protection and durability, making it easier and safer to carry your key every day.

- Designed for **Token2 Dual Interface FIDO2 keys** (USB-A & USB-C)
- **Expose either USB-A or USB-C** depending on your preference
- **Touch sensor accessible** – use the key without removing it
- **Snap button** and **keyring loop** for convenient everyday use
- Made from stitched black leather with a simple, functional design

---

⚠ Not compatible with USB-C-only or USB-A-only Token2 models.  
Does not support dual-interface biometric keys.
