Token2 - security is easy

Product Details

PIN+ Release3.3 TypeC with FIDO2.1, U2F, TOTP, HOTP, PIV and OpenPGP (T2F2-NFC-Slim TypeC)

The PIN+ Release3.3 TypeC is an NFC-enabled FIDO2 Security key with a USB Type-C port, featuring advanced PIN complexity at the firmware level. With an NFC chip onboard, this FIDO2 key can be used natively on modern iPhones (starting from iOS 13.3) and on Android devices with NFC support. This model includes a capacitive sensor-type integrated touch-button and is only 6 mm thick.

Firmware 3.3 Release

Version 3.3 adds [PIV functionality](#) to existing features.

FIDO Security Keys

FIDO security keys are small USB dongles that enable secure login to websites and applications supporting FIDO2 WebAuthn and classic FIDO (U2F) standards. With our PIN+ Series, you can now store up to 300 passkeys (also known as resident keys or discoverable credentials) on a single device.

The PIN+ Release3.3 TypeC combines hardware-based authentication, public-key cryptography, TOTP/HOTP, U2F, and FIDO2 protocols to protect your accounts. This device provides the highest level of multifactor authentication for user accounts with platforms such as Twitter, Facebook, Gmail, GitHub, Dropbox, Dashlane, Salesforce, Duo, Centrify, and hundreds more HOTP, U2F, and FIDO2 compatible

services. No additional tools or applications are required; simply insert the Security Key into a USB-TypeC slot and authenticate with a simple touch. The security key does not require a battery nor network connectivity – it is always on and accessible.

Enhanced Water Resistance

This model features a specialized PCB (Printed Circuit Board) coating for enhanced water resistance, ensuring durability against water ingress and safeguarding your data in any environment.

TOTP Feature

The PIN+/TypeC Security key can securely store the secrets for your TOTP profiles but requires a [companion app](#) (available for Android, iPhone, Windows, and cross-platform via a Python tool for Linux, macOS, and similar systems) to generate OTPs.
