

Product Specifications & Technical Details

Token2 - security is easy

Product Details

Token2 Silicone Case for Dual Interface FIDO2 Keys

A protective silicone case to attach to your backpack or keychain. This silicone case perfectly encloses the edges of Token2 Dual interface FIDO2 keys and protects them from scratches. In addition, this case is made of pleasantly soft silicone, which is also shock-absorbent.

Compatibility: Only applicable to T2F2-Dual, T2F2-Dual-PIN+, and T2F2-Dual PIN+ Release2 and later models. Designed specifically for these models, it fits perfectly with the key. Special caps attached to both USB-A and USB-C ports of the keys will protect them. Both touch sensors on the sides are accessible through holes made in the silicone case.
