Token2 - security is easy

Product Details

Token2 T2F2-NFC-Card PIN+ FIDO2.1, U2F Security Card with PIN complexity - Nonbranded and Printable

This card is a white, printable version of the T2F2-NFC-Card PIN+ FIDO2 card. It is important to note that to optimize print quality, the smart card contact interface has been removed, leaving only the NFC interface available. Both sides of the card are printable. One side is fully white with no signs, providing ample space for customization. On the other side, you'll find the serial number, NFC, and FIDO Alliance logos, ensuring compatibility and authenticity.

The T2F2-NFC-Card PIN+ from Token2 is a NFC card that fully supports the FIDO2.1 and FIDO U2F standards, featuring PIN complexity at the firmware level. This smart card offers a simplified and robust authentication solution for cloud and web applications. With its versatility, professionals can effortlessly implement secure authentication measures on both mobile and desktop platforms.
